

Public Forum Policy

Due to issues of liability, the libraries of the Three Rivers Regional Library System will no longer provide space for public forum materials. This includes bulletin boards, tables for "free" publication, and public/private notices.

Materials may be posted in the libraries only by or for government entities and groups who have cooperative ventures or are sponsored and/or affiliated with the libraries of the Three Rivers Regional Library System.

"Free" published materials may be placed in the libraries if they fall within the framework of the Library System's materials selection policy. Determination of acceptance will be made by the collection services department at the Regional Office. Approved materials will then be placed in the appropriate section of the library collection.

Adopted August 19, 2010
